SUMMARY

Nabil Manzoor is a healthcare management executive with specialist experience in strategic transformation, leadership development, operational services, and business development. He brings over 16 years of professional experience gained within healthcare and public services, and has worked across global healthcare systems mainly in the United Kingdom, Europe, Africa, and the Middle East.

Mr. Manzoor has led major commercial pursuits, built strategic partnerships, and delivered innovative consulting, procurement, and business intelligence propositions. He brings hands-on experience of developing commercial ventures, particularly Capgemini's healthcare consulting practice in the Middle East, Serco's healthcare outsourcing capability in the UK, and most recently Dr Foster's healthcare intelligence services.

Mr. Manzoor regularly supports charities and currently contributes as a strategic advisor to the Global Child Dental Fund (GCD Fund), an oral healthcare charity promoting dental care transformation initiatives across Africa and Southeast Asia.
