Expertise across the energy value chain worldwide.

BRG’s Energy team advises hydrocarbon, power, and renewable companies; lenders and investors; and law firms worldwide. Our advice is based on seasoned industry experience in global gas and LNG, conventional and unconventional exploration and production, and thermal and renewable power generation.

We work with clients to identify, manage, and mitigate risk; optimize capital deployment and performance; and capture value in an increasingly complex and competitive global energy marketplace.

BRG Energy professionals provide market, economic, finance, and risk expertise to support dispute resolution and advisory services encompassing strategic, commercial, transaction, M&A, forecasting, regulatory, and operations analysis.
