Expertise to address hospital financial performance and quality of care.

BRG’s Clinical Economics practice offers extensive healthcare expertise with a focus on Clinical Documentation Improvement (CDI), APR DRG Assessments, ICD-10 training, healthcare information technology optimization, payment reform, quality, and outpatient advisory services. Our team includes professionals with decades of experience, advanced degrees, and certifications including MDs, PhDs, MBAs, CPAs, CFEs, CPHQs, CCDSs, CDIPs, CPCs, CCSs, RHIs, RNs, and AHIMA Approved ICD-10-CM/PCS Trainers. Our experts have backgrounds in healthcare, economics, information technology, finance, compliance, and data analytics.

BRG delivers a range of advisory services to meet the challenges that may rise from healthcare reform. We understand the pressures that healthcare providers face in today’s complex environment. Our experts provide a holistic approach that addresses problematic areas that may impact the overall financial success of a healthcare organization.
